

BREMBO CALIPERS X-STYLE: A SPLASH OF COLOR INTO THE WHEELS!

The new replacement proposal puts the emphasis on aesthetics without compromising high technical and quality content

Stezzano (Italy), 1 February 2024 - Dedicated to premium models, Brembo Calipers X-Style exude a colorful touch of originality and are the ideal choice for passionate drivers who seek the plug&play set-up of the car. This introduction enhances Brembo's exclusive Aftermarket offering and completes the renewal of its Xtra line which already includes Brembo Xtra brake pads and discs.

Brembo Calipers X-Style directly comes from the consolidated Original Equipment (OE) experience of the company. In particular, Brembo's engineers have been charged with transferring Brembo's technical know-how to the new replacement proposal, with a continuing emphasis on aesthetics. This has led to the development of a new range of fixed aluminum calipers that will satisfy the demand for personalization as well as the essential characteristics of quality, reliability and performance. Brembo Calipers X-Style thus confirm the company's mission to become a "solution provider" for all the specific needs of its customers.

Drivers will have the possibility to choose which color best enhances the peculiarities of their premium car. The standard shades are red, yellow, black and grey but more bespoke colors are available on request.

The Brembo Calipers X-Style are available in dedicated kit solutions which will include two Brembo fixed aluminum calipers and two sets of accessories (springs and pins). For the list of available applications please refer to: www.bremboparts.com.

About Brembo SpA

Brembo leads the world in the design and production of high-performance braking systems and components for top-flight manufacturers of cars, motorbikes and commercial vehicles.
